Read Me

This file includes the Instructions for Code Submission Instructions for Task 5.

Please follow the instructions given on the portal in order to upload your code. You will find these folders inside **Code Submission** folder:

Code Submission folder Structure:

1. **Embedded C**:
Please put all your Embedded C codes, header files etc. inside this folder. Make sure your code is well documented and commented according to the rules and format provided on the portal under CODING STANDARDS tab.

Name your final code file **"task5-main.c"** and put it in this folder.

Uploading Code on Portal:

- Please rename your Code Submission folder as: **eYRC#CB#<Team ID>_Code**
  (For example: If your team ID is 116 then, save it as eYRC#CB#116_Code)
- Zip this folder and upload the zipped format of this folder according to the instructions provided on the portal.

NOTE: There is only ONE code submission that should be generic solution for all the cases including Original and Bonus Configurations

NO HARDCODING IS ALLOWED
